EDUCATION BACKGROUND

Universitas Ngudi Waluyo
Bachelor's Degree in Informatics Engineering (GPA: 3.77/4.00)
Relevant Coursework: Web Engineering, Mobile App Development, Database Management Systems, Software Engineering.

Ungaran, Central Java
Sept 2022 – present

PROFESSIONAL EXPERIENCES

Mobile Development Intern | BPS Kota Salatiga
Salatiga, Central Java
Feb 2025 – Jun 2025

- Developed "**SiTiga**", an official Android-based statistical mobile application using **Flutter** and **Dart** to improve public access to statistical data.
- Integrated **RESTful APIs** to display real-time data such as inflation and poverty rates, along with official news publications.
- Implemented a **caching mechanism** that reduced data loading time by approximately 30% and enabled offline access.
- Designed intuitive UI components and conducted scenario-based testing to ensure application stability and usability.

Web Development Intern | Infinte Learning (MSIB Batch 7)
Ungaran, Central Java
Sept 2024 – Dec 2024

- Developed "Maggo", a C2B2C web platform using **React.js** and **Vite** to support organic waste management by connecting households with maggot breeders.
- Built responsive and reusable frontend components using **Bootstrap** and **React-Bootstrap** for marketplace, waste pickup, and blog features.
- Implemented state management using **React Context API** and **localStorage** to handle shopping cart functionality and data persistence.
- Collaborated with a team of 6 developers using **Git** for version control and **Figma** for UI/UX implementation during the Massive Challenge program.

PROJECT

Web Development – Team Project
TiCommerce – E-Commerce Web Application.

Universitas Ngudi Waluyo
Jul 2025 – Nov 2025

- Developed responsive frontend features including product listing, AJAX-based real-time search, shopping cart, wishlist, and WhatsApp integration.
- Implemented interactive admin dashboard using **ApexCharts** to visualize monthly revenue, order status, and sales performance.
- Collaborated on integrating Midtrans payment gateway and logistics API to calculate shipping costs and support transaction workflows.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap.

Familiar with: RESTful API integration, Responsive Design, State Management.

Mobile Development: Flutter (Android).

Programming Languages: JavaScript, PHP, Dart, SQL.

Tools & Workflow: Git/GitHub, Figma, Postman, VS Code, Agile/Scrum.

CERTIFICATIONS & INTELLECTUAL PROPERTY

- **Intellectual Property Rights (HKI) – Mango**

Registered at DJKI (Directorate General of Intellectual Property). Type: Computer Program.

- **Intellectual Property Rights (HKI) – SiTiga**

Registered at DJKI (Directorate General of Intellectual Property). Type: Computer Program.

- **Certificate of Internship Completion – BPS Kota Salatiga**

Feb 2025- Jun 2025 | Recognized for contributions in developing the "SiTiga" Mobile Application.

- **Certified Independent Study in Web Development – Infinite Learning (MSIB Batch 7)**

Sep 2024 – Dec 2024 | Completed a capstone project focused on frontend development using React.js.
